THE HOLLOW EARTH

There is a suggestion within society that we are not alone, but instead of looking up to space, we should instead look below into the centre of our Earth. It is theorised that our Earth is hollow, which opens up to the idea of a lost civilization within the Earth's structure. Many explorers have tried to turn this theory into fact, and some have become close. Edmund Halley was the first to theorise this possible idea, John Cleves Symmes Jr is the most famous explorer to possibly find the Hollow Earth entrance and Admiral Richard E. Byrd is one of the first explorers to claim that he in fact flew into and visited the city within the Hollow Earth.

LARGE HADRON COLLIDER

The Large Hadron Collider is a pivotal piece of machinery within the science industry, it is powerful, strong and has the possible chance of summoning a God... This conspiracy theory follows the idea that the Large Hadron Collider is capable of bringing destruction to our Earth if an experiment is ever to go wrong. But what could it summon? There are 3 main beings that could be called upon; the ancient egyptian God, Osiris, God of the Underworld, the Hindu God, Shiva, God of Destruction. or finally, the Antichrist but which form the Antichrist could take is unknown, will it be Lucifer Morningstar or the Satanic depiction of the Antichrist as a beast.

The Large Hadron Collider is a device for awakening

The Large Hadron Collider is involved with different Conspiracy Theories, but we wanted to focus on how the LHC is actually summon a God. Many cultures have believed that could be Egyptian God

MYSTERY OF CLEOPATRA

Cleopatra, the last Queen of Egypt and a woman of mystery. Many historians and archaeologists have tried to find any information about the last Pharaoh of Egypt. But what we know, has still kept us in the dark. Cleopatra's history is one full of interest and intrigue, which surrounds her from the moment she is born to the moment she dies. What does Cleopatra look like? How did Cleopatra die? Was it poison or something else? Who did she love? Julius Caesar? Mark Anthony? Where is she buried? Where is the great Tomb of Cleopatra? These are just some of the questions we all have about the great Queen, but whether or not we discover answers is a mystery.
